#### **Additional Notes**

Our prices are not subject to VAT.

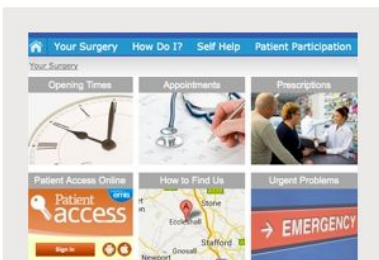

The initial contract term for our service is 12 months, then you pay each month for as long as you require your website.

Payment is taken only when your site is installed and ready to go-live.

\*\* Free Website Updates: This can be used if you do not have time to update the website yourself. We include three hours free per annum - Normally more than enough time for the average GP website. Additional time, if required, is based on £35.00 per hour.

Editor Training: We offer half day at £140.00 and full day £280.00 editor training courses. This excludes travelling charges.

General Practice Websites

Practice Website

A modern, interactive website for your General Practice Patients.

Tablet & Mobile Ready

Our General Practice websites auto-size themselves for Mobile Phones, Smart Phones and Tablets.

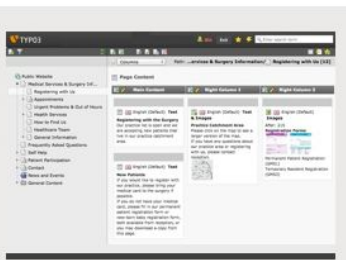

Social Media

If your practice uses Facebook or Twitter, why not embed these into your website?

Online Tools

Capture information from your Patients; Comments, Smoking Status, Travel Questionnaires, more ...

Maintaining Your Website

Using our online tools your practice can maintain your website content. Change text, add images, new pages and documents.

NHS Syndication - Coming Soon!

NHS Choices syndication enables NHS Choices content to be embedded into a website, mobile application, or any internet-enabled device.

Full Information is available at:

[www.websites4gps.co.uk](http://www.websites4gps.co.uk)

A summary of our services can be found below

## Practice Website

Our new Practice websites are available in several NHS compliant colour schemes.

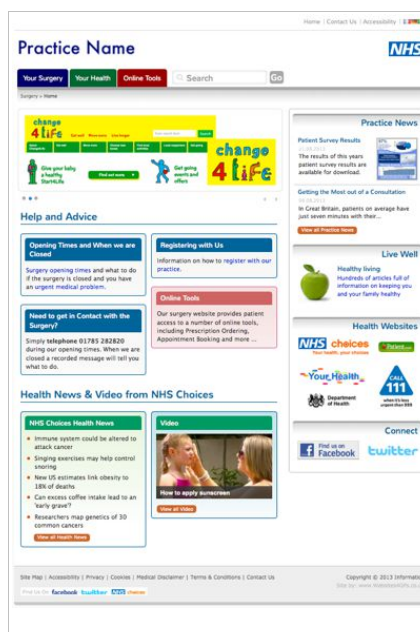

### Features of these sites include:

1. Modern Multi-Column Drop-Down Menu System.
2. Full support for Mobile and Smart Phones, iPads and other tablets (see below).
3. Auto-Updated Scrolling Information Banners.
4. Facebook and Twitter integration.
5. Multiple Page Layouts.
6. Dynamic data compression making your website download up to 4 x faster.
7. Online Editing Tools so you can edit the site content yourselves if required
8. Ready for NHS Data Syndication for Health News, Video content etc
9. Includes online forms such as: Blood Pressure Monitoring, Smoking Status, Health Questionnaire, Travel Risk Assessments etc.

### A selection of Practice websites:

- [www.gresleydale.co.uk](http://www.gresleydale.co.uk)
- [www.castlefieldssurgery.nhs.uk](http://www.castlefieldssurgery.nhs.uk)
- [www.holmcroftsurgery.nhs.uk](http://www.holmcroftsurgery.nhs.uk)
- [www.carltonstreet.nhs.uk](http://www.carltonstreet.nhs.uk)
- [www.wellway.co.uk](http://www.wellway.co.uk)
- [www.therosspractice.co.uk](http://www.therosspractice.co.uk)
- [www.figgesmarshsurgery.nhs.uk](http://www.figgesmarshsurgery.nhs.uk)

## Tablet and Mobile Ready

In addition to laptops and desktop computers, all our websites now auto-reformat themselves for optimum viewing on Mobile Phones, Smart Phones and Tablets.

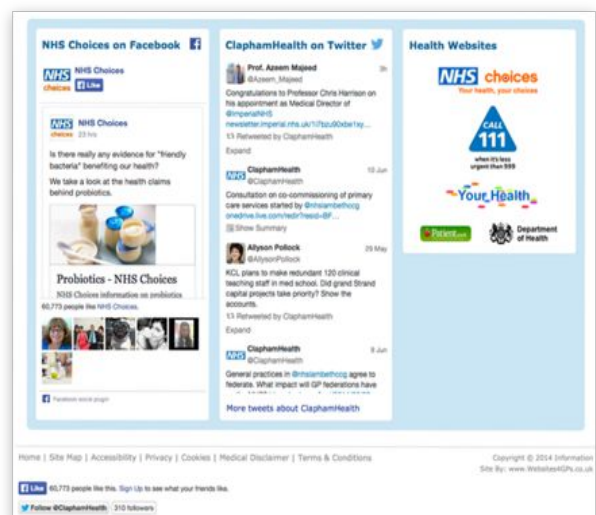

## Social Media

If your practice has a Twitter or Facebook site, these can be integrated into your website home page with associated 'Like' and 'Follow' buttons. We can also link in content from the NHS Choices sites if you do not have your own sites.

This helps keep your home page looking interactive with regularly changing content. For example, new posts on your Facebook page instantly appear on the website home page without additional work by your staff.

An example of how this works can be found on our demo website:

<http://www.websites4gps.co.uk/standard/>

## Online Tools

*Our standard online tools include;*

Smoking Status, Patient Health Questionnaire, Travel Risk Assessment, Blood Pressure Monitor, Contact By Email Requests, Comments Forms (General and PPG)

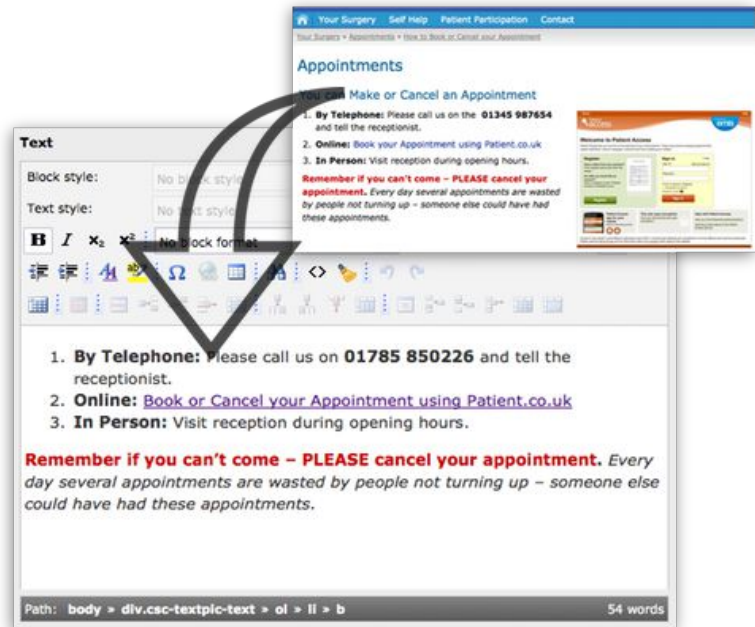

## Maintaining Your Website

 **TYPO3** We use the TYPO3 Content Management System (CMS) to build and run your practice website.

For practice staff, TYPO3 is a user-friendly, intuitive tool, which allows easy maintenance of your web pages. No special tools are required, TYPO3 is accessed using your browser.

**We have a number of online tutorials to help you get to grips with website editing - and of course if you get stuck - just give us a call and we talk you through any aspect of the editing process!**

## NHS Syndication – Coming Soon!!

NHS Syndication allows us to pull content from the NHS Choices website via a feed. This means that any information NHS Choices syndicate will remain current and up-to-date.

The available content spans the NHS Choices website, meaning we can pull in single articles on a condition, or whole chunks of information on stopping smoking or weight loss.

There are four content formats available for syndication; data feeds, video content, tools, widgets and symptom checkers.

More information on this important area will be available soon.
